Static Pressure:	Max: 10.0 bar	Outlet Connections: G 3/4" (2)

### Tools Required

For inlet centres, refer to the specification of the attached product

### Prior to Installation

All products manufactured and supplied by Bristan are safe to use provided that they are installed, operated and receive regular maintenance in accordance with these instructions.

This product needs to be installed in accordance with, and meet the requirements of the Water Supply (Water Fittings) Regulations 1999 and current by-laws. For full Installation Requirements & Notes (IRN) please visit [wras.co.uk/directory](http://wras.co.uk/directory).

Before installing this product the water supply must be thoroughly flushed in order to remove any swarf, solder etc. Full access must be made available for future maintenance/servicing purposes.

Before drilling into walls, check that there are no hidden electrical wires, cables or water supply pipes. This can be checked with the aid of an electronic detector. If power tools are used do not forget to:

- Wear eye protection
- Unplug equipment after use

This product must not be modified in any way as this will invalidate the guarantee.

If in doubt, contact a registered plumber, your Local Water Authority or the Secretary of the Institute of Plumbing, address as follows:-

The Institute of Plumbing,  
64 Station Lane,  
Hornchurch,  
Essex,  
RM12 6NB, Tel: 01708 472791

3

4

**REMEMBER**  
Hot on the left, Cold on the right.

Deburr the pipework of any rough edges and slide on the nuts and olives.

Align the pipes to the inlets tighten the nuts to secure.

HOT

COLD

5

If supplied, insert the filter washers into the product's water inlets.

Attach the product to the wall mounts, tightening the nuts to secure.

Place a cloth over the nuts before tightening to avoid scratches.

6

Turn on water supply for a few minutes and check all joints and connections for any leaks.

**Your installation is now finished.**

## General Cleaning

Bristan products are made from premium materials, with hand polished, PVD, EPD or electroplated finishes.

Your wall mount should be regularly cleaned with warm water, a mild pH-neutral liquid soap, and polished with a soft cloth. Any residues from soap, toothpaste, shampoos and shower gels can cause blemishes if not rinsed off straight after use.

Household bleaches and cleaners contain harsh chemicals and may damage the surface finish. Avoid using abrasive cloths, scouring pads, scrub sponges, steel wool or anything similar.

Some surfaces such as nickel and pewter may be affected by the dye found in some cloths, so it is also important to avoid hanging cloths on surfaces.

## Notes

Please use this space for any notes you or your installer may have regarding the installation/plumbing of this product.
