

# BRISTAN

## Installation Instructions & User Guide

Please leave these instructions with the end user

Product Code: SK INXR1.5 SU (D2)

### Tools You'll Need

### Pack Contents

### Prior to Installation

All products manufactured and supplied by Bristan are safe provided they are installed, used correctly and receive regular maintenance in accordance with these instructions.

This product has been tested to the Water Regulations Advisory Scheme (WRAS) and satisfies the requirements of the Water Supply (Water Fittings) Regulations 1999 and current bylaws. For full Installation Requirements & Notes (IRN) please visit [wras.co.uk/directory](http://wras.co.uk/directory).

Isolation valves must be fitted to the inlet water supplies to ensure ease of future maintenance.

Before installing these taps the water supply must be thoroughly flushed in order to remove any swarf, solder etc.

This product must not be modified in any way as this will invalidate the guarantee.

Before drilling into walls, check that there are no hidden electrical wires, cables or water supply pipes. This can be checked with the aid of an electronic detector.

If power tools are used do not forget to:  
 - Wear eye protection  
 - Unplug equipment after use

If in doubt, contact a registered plumber or your Local Water Authority or the Secretary of the Institute of Plumbing, address as follows:-

The Institute of Plumbing,  
 64 Station Lane,  
 Hornchurch,  
 Essex,  
 RM12 6NB, Tel: 01708 472791

### Dimensions

### Inlet Connections

Waste Connection Size: G 1 1/2"

Min Worktop Thickness: 30mm  
 Max Worktop Thickness: 40mm

### Installation

**1**

Ensuring it's straight, place the Cutter Guide on the worktop and draw around the dotted line. Drill and cut the hole.

**2**

Check the EasyFit base is correctly positioned. If you need to adjust the base; reinforce, or change the orientation of the sink, follow the steps overleaf.

**REMEMBER**  
 Make sure the base is centralised when viewed from the front of the tap.

**3**

With Connector      Without Connector

Fit the waste bodies to the sink. Secure in place with the screw.

**4**

Screw the Overflow Connection into place and connect to the waste body. Carefully turn the sink upside-down.

**5**

Attach the clamps to the sink, ensuring that they lock in place. Stick the sealing strip along the outer ridge, ensuring it is flush to the sink.

**6**

Place the sink in position. Tighten the clamps to secure the sink.

Use batons to grip the clamps if the worktop is thinner than 30mm

**REMEMBER**  
 The waste pipes can be cut to size to fit the sink

**7**

Connect the extension pipes and T-piece ensuring all washers are in place. Swivel the elbow and T-piece to connect the wastes together.

**8**

Connect the optional connection for a water appliance ensuring the conical washer has the smaller side enter the T-piece. Connect the U-bend and waste outlet pipe ensuring all washers are in place.

**You can now fit your EasyFit Tap. Please refer to those instructions to check the Pack Contents and Tap Maintenance.**

## General Cleaning

Bristan products are made from high quality stainless steel, or glass conforming to BS EN 12150. Your sink should be regularly cleaned with warm water, a mild pH-neutral liquid soap, and dried with a soft cloth. Any residues from soap, food, toiletries etc. should be rinsed off straight after use.

Household bleaches and cleaners contain harsh chemicals and may damage the surface finish. Avoid using abrasive cloths, scouring pads, scrub sponges, steel wool or anything similar. Avoid scraping the sink basin or draining board with utensils or dropping heavy/sharp objects on to the sink surface. Do not place hot objects directly on to the sink.

## Adjusting/Reinforcing the EasyFit Base

**1**

Turn the hexagonal key anti-clockwise to remove the back nut from the EasyFit Base.

**2**

If changing the handing of your sink, move the EasyFit Base to the opposite hole.

**3**

Position the top of the EasyFit base to preference.

**4**

Feed the Reinforcing Plate (if required) and Back nut up to the underside of the sink.

**5**

Turn the hexagonal key clockwise to secure the EasyFit Base.

**6**

Proceed to Step 3 of the Installation Steps.

**REMEMBER**

Make sure the base is centralised when viewed from the front of the tap

## Plumbing the Waste to a Kitchen Appliance

**1**

**IMPORTANT**  
Isolate the water supply before starting!

**2**

Remove the bung from the pipework. Screw back on.

**3**

Refer to your appliance Fitting Instructions in order to connect the waste.

## Maintenance - Unblocking the Sink

**1**

**IMPORTANT**  
Isolate the water supply before starting!

**2**

Check for blockages and clean the pipework where necessary. Secure after cleaning.

**3**

Let the water flow for a few minutes and check connections for any leaks.

## Troubleshooting

Symptom	Cause(s)	Remedy
Sink is leaking	Loose waste connections	Check waste connections for any leaks, ensuring all O-rings are in place.
	Seal around the sink edge/plug lets water through	Add extra silicon sealant to those edges to ensure a water tight seal.
	Sink leaking from the overflow	Check the overflow seal and connections for damage. Ensure the screw is tightened.
Water isn't draining from the sink	Sink is blocked.	Refer to the Maintenance Section for Unblocking the Sink. If no blockage is found in the waste pipework, please contact your local Plumber for guidance.
Clamps do not grip the worktop	Worktop is under 30mm	Use a strong material e.g. wood to place under the worktop in order for the clamps to grip.
Wobbly Tap/ Sink is Flexing	Tap grub screws are not tight enough at the base	Ensure the grub screws are fully tightened against the base. See your EasyFit Tap Instructions.
	Extra security may be required to support the tap base.	Refer to the Alternative Installation steps in order to fit the Reinforcing Plate.

## Notes

## Spare Parts

To replace any spare parts for your sink, why not scan the QR Code or visit [www.bristan.com](http://www.bristan.com) and search for your product.
