#### **Installation Instructions** & User Guide

Please leave these instructions with the end user

Product Code: CRU BAS Range (D2)

### **Specification**

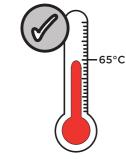

#### **Dynamic Water Pressure**

Min: 0.5 bar Max: 5.0 bar

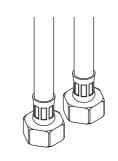

Maximum Static Pressure: 10.0 bar

#### **Inlet Water Temperature**

Maximum Hot: 65°C

#### **Inlet Connections**

1/2" BSP Flexible Tails

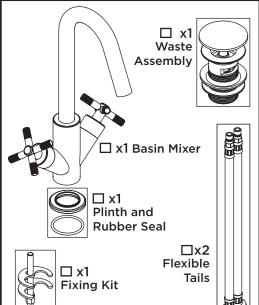

#### Outlet

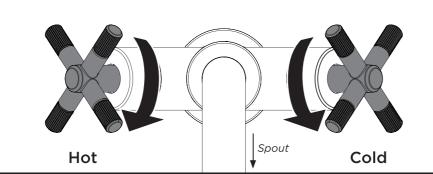

M18.5 5lpm Coin-Slot Aerator

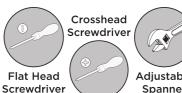

## **Pack Contents**

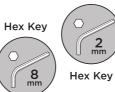

### **Tools Required**

### **Prior to Installation**

All products manufactured and supplied by Bristan are safe to use provided that they are installed, operated and receive regular maintenance in accordance with these instructions.

This product needs to be installed in accordance with, and meet the requirements of The Water Supply (Water Fittings) Regulations (Northern Ireland) 2009 and The Water Supply (Water Fittings) (Scotland) Byelaws 2014.

For full Installation Requirements & Notes (IRN) please visit www.wrasapprovals.co.uk/approvals-directory

Isolation valves must be fitted to the inlet water supplies to ensure ease of future maintenance.

Before installing this product the water supply must be thoroughly flushed in order to remove any swarf, solder etc. Full access must be made available for future maintenance/servicing purposes.

This product must not be modified in any way as this will invalidate the guarantee.

#### **Spare Parts**

To replace any spare parts for your tap, scan the QR Code or visit www.bristan.com and search for your product.

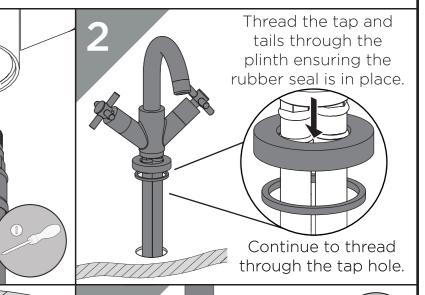

PLEASE NOTE - Taps shown in these instructions are for illustration purposes only. Your product can be installed and maintained using these instructions.

#### Installation

Screw the fixing kit rod into the base of the tap and tighten with a screwdriver.

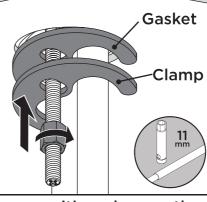

Screw in the flexible tails by hand only.

DO NOT **OVERTIGHTEN** 

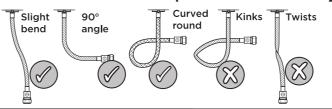

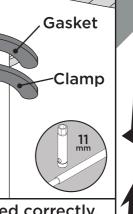

Slide the rubber gasket and metal clamp along the fixing rods as shown.

Align the gasket and clamp with each other and tighten the nut to secure.

#### Ensure flexible tails are positioned correctly.

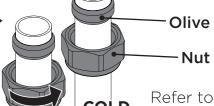

Flexible

Connect the hot and cold water supplies to the flexible tails and turn until tight.

COLD HOT

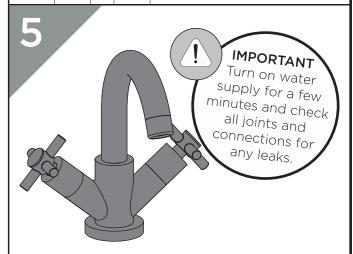

Refer to diagram below for correct flexible tail position.

### **General Cleaning**

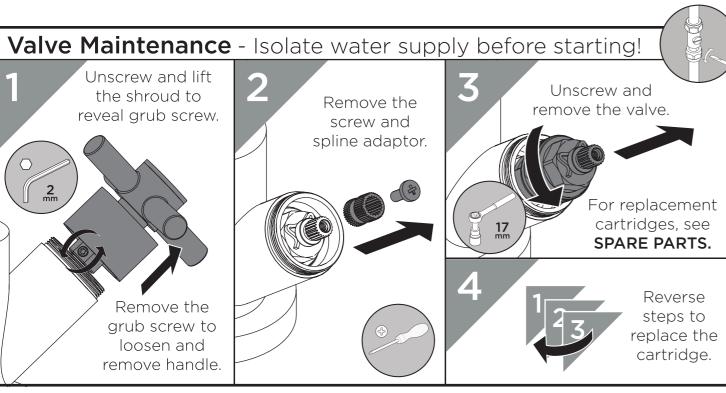

Bristan products are made from premium materials, with hand polished, electroplated, PVD or EPD finishes.

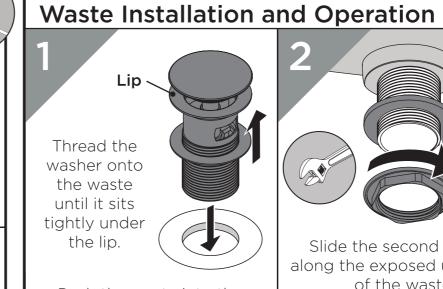

Your taps or shower should be regularly cleaned with warm water, a mild pH-neutral liquid soap, and polished with a soft cloth. Any residues from soap, toothpaste, shampoos and shower gels can cause blemishes if not rinsed off straight after use.

Household bleaches and cleaners contain harsh chemicals and may damage the surface finish. Avoid using abrasive cloths, scouring pads, scrub sponges, steel wool or anything similar.

Your tap is now ready for use.

Push the waste into the hole until the lip sits flush with the basin.

Slide the second washer along the exposed underside of the waste.

Then tighten the backnut to secure in place.

Closed Open

Push the centre down to close the waste, push again to open.

Your waste is now ready for use.

### **Spout Seals Replacement** - Isolate water supply before starting! Unscrew the Remove the spout connector. grub screw from the rear Take note of spout of the tap and seal positions, then lift out the remove them. spout.

Check all loose parts for damage and then soak using a suitable solution to de-scale.

Troubleshoo	oting		
Symptom	Cause		Remedy
Low Flow	Partially closed isolation valve.		Open isolation valve.
	Airlock or partial blockage in the supply pipework.		Flush through pipework to ensure removal of debris and any airlocks.
	Partial blockage in the outlet		Remove to Clean and soak in suitable solution.
No hot water or cycling hot and cold	Instantaneous water heater cycles on and off as flow rate or pressure is too low.		Increase water flow rate or pressure through system.
No Flow	Closed isolation valve.		Open isolation valve.
	Mains water supply turned off.		Turn on mains water supply.
Temperatures not corresponding with taps	Inlet pipes have been connected incorrectly		Swap the inlet tails around.
