Please keep this booklet for future reference.

Installer, when you have read these instructions please ensure you leave them with the user.

Introduction

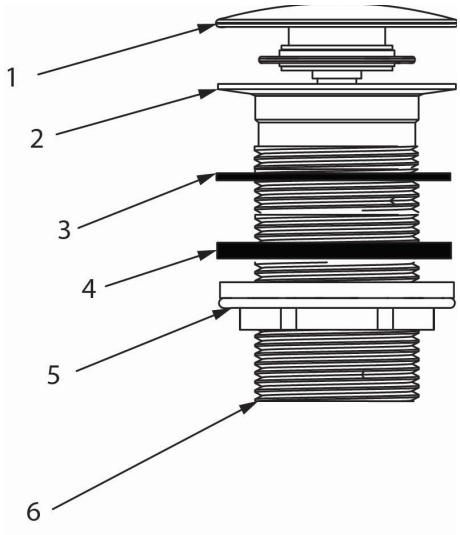

Thank you for choosing Bristan, the UK's leading taps and showers expert.
We have designed this product with your enjoyment in mind. To ensure that it works to its full potential, it needs to be fitted correctly. These fitting instructions have been created to give you all of the information you need and, if you need any further help, please do not hesitate to give us a call on 0330 026 6273.

Components

Slotted Wastes -

1. Waste Flange
2. Upper Rubber Washer
3. Lower Rubber Washer
4. Waste Body and Back Nut

Unslotted Wastes -

1. Clicker Mechanism
2. Flange
3. Upper Rubber Washer
4. Lower Rubber Washer
5. Backnut
6. Waste Body

Installation

Slotted Wastes -

1. Identify all components are present prior to installation.
2. Unscrew the backnut (4) and remove the lower washer (3). Fit the waste above the basin with the upper washer (2). Locate the bottom waste.
3. Secure waste with backnut (4) and the lower washer (3).
4. In order to fill the basin, the 'Clicker' mechanism of the waste needs to be pressed down. To release water, press the button again.
5. Check all joints and connections for leaks.
6. See below for aftercare instructions.

Unslotted Wastes -

1. Identify all components are present prior to installation.
2. Unscrew the clicker mechanism (1) from the flange (2) and the flange from the waste body (5).
3. Fit the lower rubber washer (4) onto the waste body (6) and put under the basin. Fit the upper rubber washer (3) to the flange (2) and screw through the basin into the waste body.
4. Screw the clicker mechanism (1) back into the flange (DO NOT OVERTIGHTEN)
5. Check all joints and connections for leaks.
6. See Below for aftercare instructions.

General Cleaning

Bristan products are made from premium materials, with hand polishing and electroplated finishes.

Your waste should be regularly cleaned with warm water, a mild pH-neutral liquid soap, and polished with a soft cloth. Any residues from soap, toothpaste, shampoos and shower gels can cause blemishes if not rinsed off straight after use.

Household bleaches and cleaners contain harsh chemicals and may damage the surface finish. Avoid using abrasive cloths, scouring pads, scrub sponges, steel wool or anything similar.

Some surfaces such as nickel and pewter may be affected by the dye found in some cloths, so it is also important to avoid
hanging cloths on surfaces.
